Doremi Cinelister Instructions for Google Home "Dim"

Step 1: Remove the Mid/Trailer lighting cue from its default position

Locate the Mid Lights cue in your feature SPL, normally near the very start of the playlist. Select it in the right-hand pane and press "Remove".

Locate the Mid/Trailer lighting cue in the list that appears (the same one which was removed earlier), select it, and then press "Add to Show Playlist".

Step 3: Set the timecode for the Mid/Trailer lighting cue

A dialog box will appear with timecode. Click the Up arrow until this reads 33 seconds.
