	all CPL features trailers advertisement policies others SPL					

While in the Content/SPL tabs, select "New SPL".

Drag and drop your media into the timeline at the bottom of the screen, then once the Google Home spot has been placed, right-click on it. Click on "Add Cues".

## Step 2: Select the Mid/Trailer lighting cue

After confirming your server type, locate the appropriate cue to bring lights to half in the auditorium (this can many possible names, including "Lights Mid", "Trailer Lights", "Credits", etc. Then press "OK".
